

OPEL MOVANO: BANNER

THE FIRST VAN THAT CARRIES YOUR STUFF ACCROSS THE WEB.

To promote the Opel Movano Van range, we created the Movano FileMover: a banner that is both useful and innovative. Working just like websites such as YouSendIt or WeTransfer, the banner allows to upload up to 2 GigaBytes of file in the rear of the van and send it to someone... who'll then receive an email to download the file and learn about the Movano Van range. Simple, practical and spot-on target.
