

HEADLINE:

TO CENSOR JAPAN IS TO
SURRENDER JAPAN.

DESCRIPTION:

Everyday a blog is being hacked, a post deleted, a fact censored, a voice of millions against a nuclear Japan silenced. And it's happening in Japan. Not North Korea, but Japan. The objective of this ad is to raise awareness of the censorships, and to generate traffic to Greenpeace Japan's website where this Topic is discussed more in detail, together with instructions on what each person can do about it.
