*TURN
ON THE
LIGHT.*

Imagine your 401(k) without the fees that stunt its growth.

*There are lots of places 401(k) fees hide.
We'll help you find them.*

Did you know many retirement plan providers and advisors bury their fees inside plans? It's a hidden secret they don't want you to unveil.

First Western Trust is an independent fiduciary, and we're not incentivized through embedded fees like many banks and brokers. So instead of looking out for our best financial interest, we focus on yours, and optimize your company's retirement plan.

Let us shine the light on your retirement plan. Contact Vice President Pete Siple at 303.531.8128 for your free benchmarking review (a \$1,500 value). And get an unbiased look, without a hidden agenda.
