# THE BAND

Pick up band members to add musical firepower to your remix.

**NOTE:** Each band member shoots automatically on beat to add to your remix. All you have to do is drive.

# THE BAND

**NAME:** Luke  
**INSTRUMENT:** Lead Guitar  
**WEAPON:** Guitar Bomb  
**DESCRIPTION:** Think his guitar playing is killer? Wait till he throws it. His Guitar Bombs will add an explosion of sound to any mix.

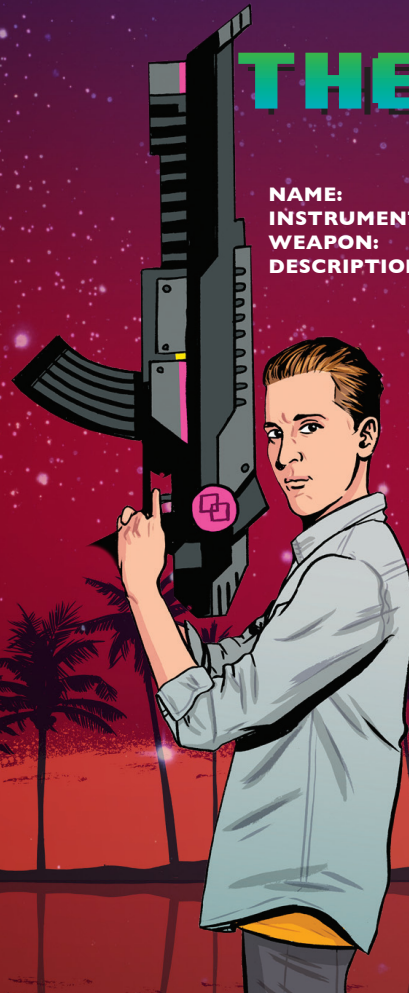

# THE BAND

**NAME:** Nick  
**INSTRUMENT:** Drums  
**WEAPON:** Gatlin Gun  
**DESCRIPTION:** Drummers are the heart of any tune. But they're also great for filling hearts with bullets too! Nick's rapid firepower is as deadly as it is musical.

# THE BAND

**NAME:** Tom  
**INSTRUMENT:** Bass Guitar  
**WEAPON:** Mystical Bass Orb  
**DESCRIPTION:** A master of the deep arts, Tom once hit a note so low it created a tear in space-time that allowed him to harness mystical bass powers. He mostly uses them for picking up chicks and to summon a deafening bass orb that he shoots at bad guys. Evil gangs beware.

# THE BAND

**NAME:**

Tim

**INSTRUMENT:**

Keyboard

**WEAPON:**

Melodic Missile Launcher

**DESCRIPTION:**

When he's not tickling the ivories he's torturing bad guys with his high pitched Missiles. Use him to launch a little bit of crazy into your mix.

# EVIL FLAME GANG

**BOSS:** The leader of the evil flame gang and Carolyn's badass boyfriend. Why is she with him? Nobody knows. Some say he once had a sensitive side. But he's mostly machine now. His mind, twisted and evil... No wait, that was Darth Vader. Anyway, choose the right path to create the best remix and show him who's really boss.

**GYPSY SISTERS:** The only thing more terrible than their attitude is their fashion sense. Their cruelty knows no bounds. They'll do anything their leader says and will stop at nothing to destroy Sam. They're also really mean to Carolyn and it's not really clear why she hangs out with them.

## ROAD CONDITIONS

RC

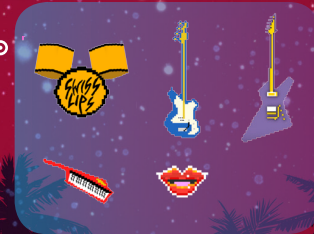

Driving over anything on the road affects your remix. Be selective, everything makes a sound but not everything will sound good, so try mixing and matching.

## INSTRUMENT FOCUS PICK-UPS

IFP

Drive over instrument icons to focus your track on one instrument. You can also drive over consecutive icons to combine instruments together. These icons will add the most differentiation to your track so try playing around to find the sound you like best.

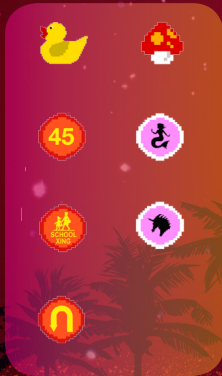

# SONIC POWER-UPS

SPU

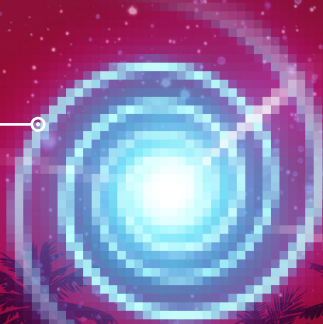

There are Sonic Power-Ups scattered everywhere, each of them with a unique sound to sample. Some of them are harder to find than others, so keep your ears open.

# TRANS-AURAL PORTALS

TAP

Take a sonic leap from one audio world to another. These strange portals only appear a few times in the game.

# AUDIO EXTRAS

These audio icons will unleash special sonic powers.

**SMALL PILL:** Take this pill and you'll feel a little small. It might sound weird, but maybe you like that sort of thing... we don't know your life.

**BIG PILL:** This pill makes you big. Really big. Okay maybe not that big. And it'll make your mix sound big too.

**ZOMBIES:** Yeah, that's right. Choose the right path and you'll find zombies. Drive over them to make them scream.

**HEARTS:** One sounds good and one sounds bad. We'll let you figure out which is which. But you'll have to find them first.

**MUSIC NOTES:** Look to the sky to find this audio challenge. Collect all the notes to complete the melody and win Carolyn's heart.

# ABOUT YNTHT
