## PROBLEM

Holiday season is the happiest time of the year for everyone, except for our dogs. As they listen up to 16 times more than humans, the fireworks used in Christmas and New Year's Eve seriously scare them, accelerating their pulse, making them bark, and even run away from their homes.

## SOLUTION

Provet created the Dogbunker, a soundproof kennel with professional caregivers to protect dogs from fireworks. People could bring their dogs on the 24th and the 31st of December to make sure they spent a happier holidays, and pick them up the next day.

Because every family member deserves a happy holiday.
