Re: Osama bin Laden, biological weapons of mass destruction, Frank B. Ingram, Security Identification Number SA32NV (US Treasury); Rick Reynolds, Security Identification Number SA233MS (US Treasury) and Ambassador Leo E. Wanta, a.k.a. Lee E. Wanta, an American Operative, Ministry of Foreign Affairs, DPP#-04362 & 12535

Dear Attorney General Ashcroft:

I am writing this letter as part of the legal team representing Ambassador Leo Wanta ("Wanta"). Reading the following summary and brief overview should give you some insight into the relevance of the reference to Osama bin Laden, others referenced above and an incidence of substantial injustice.

1. Since on or before 1985 Wanta has been an American intel-operative with duties and responsibilities to implement directives from the White House under the National Security Directive 66,66 and/or 88; President Reagan Executive Order and the Rogers Houston Memorandum. As part of the implementation of the directives from the White House Wanta became Ambassador to Canada and Switzerland from Somalia in 1993. The official investiture of Wanta by Somalia President Haji Mohammed Hali Hashi occurred in Paris France in 1993.
2. Base of operations for Wanta to carry out his Executive Office directives were in Vienna, Singapore and Budapest. GAO monitored and received required reports on all use of funds and financial transactions. In April of 1992 Price Waterhouse Hong Kong offices were retained and conducted an audit of Wanta government dealings as part of the implementation of the USA-KOK-WANTA 1992 fully executed tax treaty to go into affect in June of 1995. Wanta had an individual United States Department of the Treasury identification number for the repatriation of foreign assets.
3. In the time period of 1988 to 1991 Wanta was orchestrating the recovery of General Dynamics Stinger missiles from Afghanistan. During this same time period he was dealing directly with Northern Afghanistan rebels including Osama bin Laden and other individuals now identified as part of terrorist cells. As part of his dealings with these people there were financial transactions where deposits and sources of funds were traced and monitored - Records are still available.
4. During the same 1988 to 1991 time period Wanta was investigating and tracing producers of Anthrax, Red Mercury 20/20 and U.S.S.R. fusion bomb along with other matters. This investigation included locating supply sources, tracing distribution routes and monitoring financial transactions with buyers. Specifically Wanta was involved in the disruption of the Red Mercury 20/20 laboratory in Morges, Switzerland operated by Dr. John Lutz. In addition he monitored and reported to authorities the transport of Anthrax from the U.S.S.R. and Bulgaria to Trieste the main port of Iraq.

The investiture of Wanta as Ambassador from Somalia to Canada and Switzerland was facilitated and agreed to by the President of Somalia as part of operations to establish a lease by the United States Air Force for the main Somalia airport and restoration of Somalia ports for use by the United States Navy and other friendly countries. Additionally Wanta dealings in Somalia were part of a continuing operation to maintain close intelligence information on Osama bin Laden.
