

HONDA
The Power of Dreams

Evolution didn't spend 5 million years perfecting the square.

Sleek, smooth, the way nature intended it. By thinking outside the traditional 4WD box, Honda has created the new 2007 CRV with a striking streamlined exterior, intelligent interior and sophisticated style. Its low centre of gravity means the CRV is perfectly poised for superior handling to stalk its prey, be it bach, beach or boulevard. Place yourself in the driver's seat to fully understand how far a 4WD can evolve. Call 0800 255 666 or visit www.honda.co.nz to book a no obligation test-drive.

Sleek. Smooth. **CR-V**
