

We don't know how
our new baby food
will turn out.

Take for example, Heinz Cook At Home™ Primavera Sauce. We can't tell you what it's going to taste like until you tell us what you're going to add to it. Stir it through sautéed minced beef served with a parsnip and potato mash and it becomes a delicious Beef Primavera. Or add it to steamed diced green beans with cooked pasta and tuna and you've got a tasty Tuna Primavera. Then again you might not cook with Primavera Sauce at all, choosing one of our five other Cook At Home sauces instead. One thing we can be sure of is Cook At Home's quality. It's free of preservatives, artificial flavours and colours. So surprise us and your baby with Heinz Cook At Home™.

Think twice before you try
our new baby food.

Or three times. Or four times. Because when you add your own fresh ingredients to Heinz Cook At Home™ the possibilities are endless. Sure the packet could say Primavera, Gacciatore or White Sauce but that's just a hint as to what the dish could be. For example, add cooked minced chicken and pasta to Cook At Home White Sauce and it becomes a Chicken and Pasta Bake. Add those same ingredients to Cook At Home Gacciatore Sauce and you've got a Chicken Gacciatore. With six different sauces to choose from, it's a great way to turn a standard baby meal into a variety of delicious options. The only thing that isn't a surprise is the quality. Like all Heinz baby food, it's free from preservatives, artificial flavours and colours. So pick up a pack of Heinz Cook At Home™ today and decide what it's going to be tomorrow.

Our new baby food
is missing
a vital ingredient.

You. That's because the new Heinz Cook At Home™ range isn't complete without your help. Take for example, Cook At Home Creamy Pumpkin & Basil Sauce. Sounds tasty, but it's not a finished meal until you've included your own ingredients. Add finely diced cooked chicken and steamed rice and you've turned Creamy Pumpkin & Basil into a delicious Chicken Risotto. Add those same ingredients to Cook At Home Carciatore and you've created a tasty Chicken Casserole. Instead of being a meal solution it's a variety solution. You still get to do the cooking. We simply offer six different Cook At Home varieties to make your cooking a little more interesting. And as Heinz Cook At Home™ is free from preservatives, artificial flavours and colours it's just as baby friendly as the ingredients you add to it.
